# 0. Introduction

## 0.0 President's Welcome

**Incoming message from Samuel Shenton <samuel@ucc.asn.au>:**

Welcome to the UCC and our 40th Anniversary Fresher Guide!

UCC has always been a social club for students interested in computers who want to meet new friends, work on projects or play games during breaks. No technical experience is necessary to join up but if you do want to learn more and get involved with computers be sure to attend our many Tech Talks and Hacking Nights announced on our primary mailing list ucc@. We also host a bunch of social events throughout the year such as LANs, the Quiz Night, our Annual Camp in July and Charity Vigil. Be sure to attend the Fresher's Welcome and Annual General Meeting to get the best introduction to the club and run for Fresher Rep, a great first step to becoming involved in the UCC Committee.

The UCC Clubroom has been the focal centre of the club for years. With numerous clubroom desktops, machine room and our famous Coke and Snack Machines it provides everything you could want on a typical university day. Recently, some new chairs, keyboards and mice have been purchased to improve equipment and an Oculus Rift bought for all members to try out, just ask a door member.

Founded in 1974, the UCC is one of the oldest student run computer clubs in the world, even older than the Computer Science Department here at UWA. To celebrate, we are hosting a 40th Anniversary Dinner in September where members old and new will gather to learn and reminisce over our rich history. History which no doubt will be dug up again throughout the year.

So make sure you come to the clubroom, set up your account and enhance your university experience at UCC.

Samuel Shenton [SAS] UCC President 2013

# 1. Finding the Clubroom

## 1.0 Maps

Figure 1.1: Maps

## 1.1 Directions

1. Starting from the carpark outside The Tav, follow the arrow on the aerial picture to get to the Cameron Hall door, then go up the stairs to the second floor and follow the bottom map.
2. If you see a coke machine and a snack machine, you are in the right place. The UCC clubroom has lots of computers and a couple of couches.
3. If you accidentally find yourself surrounded by books and a fridge, you're in UniSFA — try the other door in that corridor.

You can see if the clubroom is open online at [<http://webcams.ucc.asn.au/>](http://webcams.ucc.asn.au/)

Figure 1.2: This is what the clubroom looks like

## 2. Your Account

### 2.0 Getting it

SIGNING UP AT THE O'DAY STALL DOES NOT GIVE YOU ACCESS TO ALL OF UCC'S SERVICES.

YOU NEED TO CREATE AN ACCOUNT AT THE UCC CLUBROOM.

Your UCC account is *the* most important thing you can have as a member. In addition to providing a way for us to communicate with you, the account lets you log into any of our clubroom machines, as well as granting you access to our user servers, wireless network, online drink and snack machines, and more.

Once you're at the clubroom and ready to create an account, ask around for a Wheel or Committee member and have your membership sticker (we normally put it on your student card on O-Day) to set up your account. You'll need a user name and a password to memorise, but it's a pretty simple procedure once you've found the right person!

Now that you have an account, you can use it to log into any of our clubroom machines. If you want to log onto one of our servers, you'll need to use the SSH program. If you're having trouble, just ask someone in the clubroom — we don't byte!

Changing your UCC password can either be done by Ctrl-Alt-Del on a windows machine or using the command `passwd` on a Linux/Unix machine. Accessing the UCC WiFi network can be a bit tricky (particularly on Windows machines). Ask someone if you need help, or refer to <http://wiki.ucc.asn.au/Wifi>

### 2.1 SSH for Great Good

SSH is a program that lets you remotely access UCC's servers. These can be used for almost anything (legal) you can imagine; programming, website hosting, file storage, IRC chatting, dispensing drinks, and many more things.

From a windows computer, open a program called "PuTTY" (or "KiTTY"). Enter the address `username@ssh.ucc.asn.au` and click "Open". You can SSH from home using the same address.

### 3. Dispense 101

At the same time as you set up your account, you will also have your dispense account set up. Dispense is the program that allows users to store credit and purchase items from the coke/snack machines. Coke members can help you add credit to your dispense account. Call out for one in the clubroom if need be, there's always one around.

The easiest way to dispense a drink is probably the web interface at <https://secure.ucc.asn.au/dispense>. Simply enter your username and password and then select a drink.

Due to technical reasons, snacks cannot be dispensed using this interface. Getting a snack will involve typing a 5 digit User ID and a 4 digit PIN into the keypad. This allows you to dispense both drinks and snacks.

You can also use your Student Card or SmartRider as a log in device on the snack machine. To do so, log in to the Snack Machine and hold whichever card you want to use up to the card scanner (it's the thing with the blinking green light) and the card should auto- enroll. To log in using the card, simply hold the enrolled card up to the card scanner.

You can also access Dispense using the `dispense` command. Dispense isn't installed on clubroom machines so you will have to use SSH to access one of UCC's servers.

## 4. UCC::Events

UCC runs a lot of events. You should go to them! Dates and times may change.

### 4.0 Fresher Welcome

**When:** Friday, February 28th, 5:00PM

**Where:** Cameron Hall Loft (above the UCC clubroom)

The Fresher welcome exists to welcome you, a new UCC member, to the club. There will be a number of current members there to talk with and get to know, and all of your questions about the club and how to use it will be answered. As a bonus, all first time members get **FREE pizza**.

### 4.1 Annual General Meeting

**When:** Tuesday, March 11th, 1:00PM

**Where:** Guild Council Meeting Room

The AGM is the meeting at which the new UCC committee is elected for 2014. The only way to be represented is to attend on the day. As a Fresher, you should attend to either run for or vote for the position of the Fresher Representative, who will be your liaison for the committee. If you don't know where the Guild Council Meeting Room is, arrive at the UCC clubroom a little early to join the mass exodus.

### 4.2 Easter LAN

**When:** Easter Weekend, 3:00PM until the morning after

**Where:** The Loft (above UCC Clubroom)

UCC runs a number of LANs throughout the year, some with proper organisation, some without. The Easter LAN is the first big LAN of the academic year, taking place over the Easter weekend, the first weekend of

mid-Semester one study break. We play a number of different games, and of course you can organise your own. LANs are free for all UCC members, but you can bring a friend for around \$5 (though of course you should encourage them to join). Bring your own PCs, or use one of the limited stock in the clubroom.

### 4.3 LANs

**When:** Throughout the Year, From Dusk til Dawn

**Where:** The Loft (above UCC Clubroom)

The UCC hosts a number of more LANs throughout the year. As above, the Easter LAN is the first big one. Expect other LANs during the semester and breaks.

### 4.4 Cameron Hall Quiz Night

**When:** First Semester, probably in May, Evening

**Where:** UWA Tavern

Bringing together the various clubs of Cameron Hall, the quiz night is the only proper time to use your smarts throughout your degree. (18+ Event).

### 4.5 Camp

**When:** 18th to 21st July

**Where:** Lake Leshenaultia

The UCC goes camping! Without tents. There is a dormitory. During the winter break, UCC will host a camp at Camp Leschenaultia. This is a chance to get your computer out of the house for a few days, tinkering and playing games with a whole bunch of other members. Don't worry, you won't be without precious internet. (18+ Event).

## 4.6 40th Anniversary Dinner

**When:** Saturday, September 13th, 7.00 PM til late(r)

**Where:** South Perth Yacht Club

The big non-tech event of the year, the 40th Anniversary dinner is an opportunity for new members to meet the old blood of UCC, the ones that are still kicking on. Taking place in the lovely South of Perth Yacht Club, this fully catered dinner will be a good celebration of 40 years of computing. Expect entry prices to be around \$60 to \$80.

## 4.7 Cameron Hall Charity Vigil

**When:** Semester 2 - mid-semester study break - Overnight

**Where:** Cameron Hall

Once a year, all of the clubs in Cameron Hall get together and hold a night of fun and games to raise money for charity. While the details of the night are still to come, the UCC will probably host a LAN. There will be an entry fee for this event, but expect it to be fully worth it.

## 4.8 Tech Talks

**When:** Throughout the Year

**Where:** UCC Clubroom and/or the Loft

Tech talks are a chance to demonstrate your own tech-y knowledge, or learn from someone else. Taking place throughout the year, as interest demands, the talks will cover a variety of topics, previous ones including introductions to TOR, learning basics, and the magic of data compression. Early on in the semester, a number of tech talks will cover learning to use the club's machines.

## 4.9 FUCC Camp Scholarship

### **Incoming message from James Cox and Lionel Price:**

For new members to UCC, Lionel and I would like to tell you about our full-ride scholarship program. We realise that Camp is fairly expensive, but as once-freshers made good we are financially able to provide unto others. Previous recipients of these scholarships have gone onto great things so we are proud to offer it once more in 2014. I would encourage everyone who is interested to take advantage of this offer - I had a great time my first UCC Camp which is part of the reason why I now offer this scholarship.

Two first-time UCC Campers will have their entry fee paid for by us. As before, you will also obtain the privilege, if you should so wish, to add a pink F to your UCC tags, denoting sophistication, intellect, and exclusive membership of an elite group of teamkilling imbeciles.

To be eligible for this award, you must be a UWA student, member of UCC, and to not have attended a previous UCC Camp. Applicants will also need to declare in writing that they will participate in at least one game of DotA during UCC Camp, and that when we play ET you will not be a noob in the back with a mortar accomplishing nothing all match.

## 5. Communication Technologies

### 5.1 Social Media

Dragging itself kicking and screaming into the 21st Century, UCC has managed to set up a social media presence in something called the "cloud".

- UCC Facebook Group: <<https://www.facebook.com/groups/universitycomputerclub>>
- UCC Steam Group: <<http://steamcommunity.com/groups/UCC>>
- UCC Status Twitter Account (used mainly to tell everyone things are broken):  
<[https://twitter.com/ucc\\_status](https://twitter.com/ucc_status)>
- GitHub: <<https://github.com/ucc>>

### 5.2 Mailing Lists

UCC often uses email for communication. There are various lists that you can sign up for at <<http://lists.ucc.asn.au>>. The most popular lists are `ucc-announce@` for announcements and `ucc@` for general discussion.

If you are interested in technology, join the `tech@` list. If you want to be kept up to date with management of the club, join `committee@`.

### 5.3 IRC

Without a doubt, the easiest way to waste time in or out of UCC is chatting on our Internet Relay Chat (IRC) server.

You'll get to chat with some of the older members of the club who may not even be in Perth. Some of these old guard may seem a little grumpy or intimidating at first, but give them a chance, they are gold mines for information about the club and all things tech! We also have members from CASSA and ComSSA, clubs at other WA unis.

You can connect with an IRC client to `irc://irc.ucc.asn.au:6667` and join the channel `#ucc`, or with a web browser go to <<http://irc.ucc.asn.au>>

## 6. UCC::Games

Do you like Steam? Of course you do! Join UCC's Steam Group: <<http://steamcommunity.com/groups/UCC>>

UCC runs its own TF2, Wolfenstein: Enemy Territory (WolfET) and Minecraft servers. There are also a range of other games that members enjoy playing in the clubroom. Here is a summary.

### 6.0 Minecraft

Minecraft is a game where you mine blocks and craft things out of them. It is more exciting than it sounds. Within 5 minutes you will be addicted. But you probably already know this. Our (modded) Minecraft server is at [minecraft.ucc.asn.au](http://minecraft.ucc.asn.au). The modpack changes every three to six months, so you will never get bored!

For more instructions, visit <<http://minecraft.ucc.asn.au/ucc>>.

### 6.1 TF2

Otherwise known as "Hat Fortress 2". The TF2 server is located at [heathred.ucc.asn.au](http://heathred.ucc.asn.au).

### 6.2 WolfET

WolfET is an old game but is still incredibly popular at LANs.

### 6.3 DoTa

DoTa is a game that involves a lot of clicking and people yelling about 'Q's and 'W's and 'alties'. Apparently it's fun. UCC doesn't run its own server but it is the most popular game in the clubroom. Unless that's LoL. I can't tell the difference.

## 6.4 LoL

LoL is a game similar to DoTa but not the same because it is different.
